

## Clean Technology Industry Capability Teams (CCTs) Profiles of Inaugural Team Chairs

Team	Inaugural Chair	Profile
<b>Cleantech for the Built Environment and Infrastructure</b>	<p>Victoria Rose, Sustainability Director, Intercontinental Hotel Group (IHG)</p> 	<p>Victoria is responsible for managing IHG's environmental &amp; social impacts.</p> <p>Prior to joining IHG, Victoria worked as the Environmental Manager at UGL services overseeing the sustainability management of several key client property portfolios.</p>
<b>Cleantech for Food and Beverage Production and Processing</b>	<p>Mike Duggan, Manager Sustainability, EC3 Global</p> 	<p>Michael is an experienced project manager/director, consultant, and trainer having both managed multi-disciplinary teams of professionals and worked personally as a consultant. In 2011, Michael was named to a global list of the 100 Top Sustainability Professionals (ABC Carbon). Through his continuing role in sustainable development, business, research, and training, he is committed to accelerating sustainable development and facilitating its uptake into the mainstream.</p>
<b>Cleantech for Manufacturing</b>	<p>Dexter Clarke, General Manager Cleantech, Futuris Automotive</p> 	<p>Futuris is a leading Australian manufacturer that is reducing its carbon footprint and increasing profits. Futuris is actively changing the way they run their operations to use less energy and produce less waste. In addition, Futuris is adapting its existing resources to secure new cleantech revenues from products such as energy efficiency and CPV systems.</p>
<b>Cleantech for Mining/Resource and Minerals Processing</b>	<p>Jurgen Schneider, Regional General Manager, Siemens</p> 	<p>Jürgen is responsible for the leadership and coordination of Siemens business activities in Victoria, SA and Tasmania. Siemens operates across eight solution areas; Water, Energy, Environment, Healthcare, Productivity, Mobility, Safety and Security.</p>
<b>Cleantech for Developing Countries</b>	<p>Nicholas Jacobson Director - International, REEEP Regional Director</p> 	<p>Heading up the international team, Nic runs the Clean Energy Council's International Directorate and REEEP - the Renewable Energy &amp; Energy Efficiency Partnership.</p> <p>REEEP works with businesses and governments on creating the right market conditions and expanding business opportunities for clean energy in developing countries. As a result, Nic is well-placed to facilitate and promote Australian industry capabilities and develop progressive policy options for both national and international settings. He also provides the industry with briefings on developments within major multilateral climate change meetings and leads the industry's participation in UN Climate Change negotiations.</p>
